Projects

Telegram Auth TypeScript/Nuxt.js

June 2024

- Telegram authentication library for Nuxt (first shot at OSS — 10 ≥ ★).

Telegram Bot Client Rust, Vue/Nuxt.js, PostgreSQL, Traefik, Protobuf

June - August 2025

- Web client for interacting with Telegram on behalf of a bot; implemented two-way messaging (including media).
- Client-server communication is built on Protobuf + WebSocket (this was a learning experience).
